Mr. William P. Russell
Co-Chief Executive Officer
Chief Financial Officer

Twin Ridge Capital Acquisition Corp.
707 Menlo Avenue, Suite 110
Menlo Park, CA 94025

Mr. Russell:

We are providing the enclosed Passive Foreign Investment Company (“PFIC”) Annual Information Statement for Twin Ridge Capital Acquisition Corp. (“the Company”) for the year ended December 31, 2021.

The Company is a blank check company, with no current active business. Based on the analysis performed, the Company meets the PFIC asset and income test for the current taxable year. However, pursuant to a start-up exception, a corporation will not be a PFIC for the first taxable year the corporation has gross income (the “start-up year”), if (1) no predecessor of the corporation was a PFIC; (2) the corporation satisfies the IRS that it will not be a PFIC for either of the two taxable years following the start-up year; and (3) the corporation is not in fact a PFIC for either of those years.

The PFIC statement attached takes the position that the Company is a PFIC for U.S. federal income tax purposes from March 8, 2021 to December 31, 2021, the “IPO Period.” As a result, a U.S. investor in the current taxable year is considered a U.S. shareholder in a PFIC.

A U.S. shareholder is subject to the rules contained in Sections 1291 through 1298 of the Internal Revenue Code. A U.S. investor may elect to treat the arrangement as a “qualified electing fund” or QEF pursuant to Section 1295(b) of the Code with respect to the shareholder’s ownership interest in the PFIC. Once a QEF election is made, the election applies to all subsequent years.

Should an investor follow appropriate procedures and make a QEF election in the current year or, if applicable, an investor has made a QEF election in a prior year, the investor is taxed on the investor’s proportionate share of earnings computed under U.S. tax principles for each year in which the fund is a PFIC. An electing U.S. investor reports the share of earnings from the PFIC by filing IRS Form 8621, Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund.

The amounts reflected on the enclosed PFIC Annual Information Statement represent the Company’s ordinary earnings and net capital gain income for the tax year (“Reported Amounts”). As an investor, if a QEF election is effective, you should pick up your pro rata share of Company’s income for the number of days during the year that you held the investment.

An investor who has made a QEF election may elect to defer paying the tax on the undistributed income of the PFIC, if any, on Form 8621. If this election is made under Section 1294 of the Code, the investor will be subject to an interest charge on the deferred tax. It is suggested that the investors consult with their tax advisors and the offering documents to determine whether to make a QEF election with respect to the ownership interest in the Company.
